# INTRODUCTORY NOTE.

*"Books not merely represent, they actually present the living force of the master spirits of the World."*

DURING the past few years there has probably been no greater advance in Public Library work than that connected with the provision and circulation of Juvenile Literature, in fact it may be said that the Public Library has now become the recognised adjunct to the Elementary school, a statement which is amply supported by the opinions expressed by the Board of Education and a large number of other educational experts.

One of the chief difficulties with which those who are especially interested in Juvenile reading have to contend is the absence of any guide to assist them in the selection of suitable works to place in the hands of the young reader.

It is apparent, even in the case of persons of mature years who have access to a varied collection of literature, that it is no easy matter to map out a definite course of reading without some guidance. It is much more obvious, then, that this need of suitable direction applies to a far greater extent where children are concerned.

The object of this Handbook is, primarily, to render more readily available the works contained in the Juvenile section of the Finsbury Public Libraries ; and, secondly, to enable and encourage scholars to supplement their school course by wider reading, and to help them to become acquainted with, at any rate, some of the many branches of literature, which must not only increase their store of general knowledge, but exert an elevating influence on their minds and characters.

The assistance which may be gained from the perusal of literature other than text-books is well put by Mr. A. H. D. Acland, M.P., in his "Guide to the choice of Books," where he says, in referring to Historical novels and tales, "The amount of actual "history contained in an Historical tale ranges from a slight "sketch of some notable character, or a narrative of obscure "local incidents, to a careful study of events of world-wide

" importance ; some are concerned with facts of social or domestic
" life, others with the fate of Kingdoms or Nations. Their truth-
" fulness to the facts dealt with must also be expected to vary
" indefinitely with the purpose and ability of the writer, and the
" exigencies of his tale. The one advantage common, in a greater
" or less degree, to all worthy books of the kind, is that of helping
" us to realise vividly the characters, surroundings and events of
" other times than our own. Not to replace, but to stimulate and
" enliven the pursuit of serious study, is the object of Historical
" Novels ; and to do it by giving us the insight into the human
" interest of bygone events which many of us find it hard to
" discover in the annals of history."

Similar claims to those which Mr. Acland puts forward for the Historical novel may readily be advanced for books of like character dealing with other subjects.

It is thought that the arrangement of the catalogue in the form of a Handbook or Guide will be more advantageous to the general reader than a mere list of entries under author's name, and will also assist parents and teachers who wish to exercise some control over the reading of those in their care, for it is well known that reading directed by someone better informed than the reader, not only stimulates the interest in a particular book, but also adds materially to the profit of the individual by widening the outlook—in the case of the child, at the most impressionable and hopeful period of his or her life—and initiates a connection with the Public Library which should prove of the utmost value as the reader advances in years.

Teachers have proved enthusiastic supporters of this movement to help the children, interesting themselves in the general reading of their pupils, giving helpful hints as to what should or should not be read, encouraging in the youthful mind a love of books, and stimulating them to read with a purpose. Such guidance is certain to have beneficial effects, as Teachers can do more by simply putting good books in the way of their scholars than by indulging in any amount of exhortation or denunciation.

On the part of the children it is evident, at any rate in Finsbury, that there are many scholars who are anxious to be put in the way of good reading as, in the first two months after the Committee's permission was granted to Head Teachers to recommend Scholars

working in the Fifth or higher standard for Readers' Tickets, no less than 291 were issued.

The Handbook is divided into two parts, the first forms an Author Catalogue, with brief descriptive notes on the principal works, especially when the latter are valuable as illustrations of history, geography, arts and sciences or of the manners and customs of the inhabitants of various countries.

The second part is a Subject Catalogue, arranged in classified order according to the "Adjustable Scheme" and shows at a glance the available literature on any particular topic.

The grouping together of facts and fiction is new, but the compiler believes that such an arrangement is one which is especially adapted to the treatment of Juvenile literature.

A reader desiring to ascertain what literature is available on Animal life, will, on referring to A 68 find popular essays and sketches, followed by stories illustrating Animal life. Again, if Military history is the subject under study, on turning to F 18-20 he will find works on Military and Naval history, followed by a chronological list of Battles illustrating 140 distinct engagements from the Battle of Hastings, 1066, to the Russo-Japanese War, 1904–5. Another example may be given in the case of works dealing with India—at F 480-491 will be found grouped together historical and descriptive works, tales of Military history and stories illustrating the manners and customs of the inhabitants of India.

To add interest to the Handbook, and also to give some clue to the date when each work mentioned was first published, certain biographical details have been attached to the names of the principal authors.

It should be noted that in order to render the present Handbook uniform with the previously issued "Class-Guide to Adult Fiction" authors who use pseudonyms or pen-names are invariably placed under their family or birth names. Married women who use pseudonyms are placed under their maiden names when ascertained.

A topical index, which should be freely consulted, has been provided to show the exact position in the Handbook of entries dealing with books on any particular topic treated therein. The

Table of Contents gives an outline of the main subjects on which the second portion is planned. Those who are familar with the "Adjustable Scheme of Classification" will find little necessity to refer to the Index so far as subjects are concerned.

It is hoped that the particulars of publication will be of assistance to Librarians in the work of selection, and also to educational authorities in the preparation of lists of suitable books for prize awards.

It has not been found possible, for obvious reasons, to include the price and publisher of every work represented in the Handbook, but the omissions, it is anticipated, will in no way detract from the value of the work as a whole.

Owing to the short space of time in which the work of preparation, etc., has had to be accomplished, the compiler recognises that there may be many imperfections for which he craves indulgence. He also feels that there is still much room for improvement, and he will be grateful for corrections of any errors noticed, or any suggestions that may be made which will add to the usefulness of any future editions of the work

He also desires to express his sincere thanks to the many friends who have been good enough to place their advice and help at his disposal, especially to Mr. Alfred Trubner Nutt, for his care in revising the proofs and much helpful assistance, and to Mr. William Swan Sonnenschein for his useful criticism.

For a large amount of the practical work connected with the compilation of this Handbook he is indebted to Mr. W. G. Wilding, Sub-Librarian, and to Misses Glasgow, Wildbore, Mackenzie, Hurley and Bromhead, members of the Finsbury Public Libraries staff, whose willing services he wishes to acknowledge.

Lastly, he desires to thank the Public Libraries Committee for their kindness in permitting him to issue the Catalogue in the form of a Handbook rather than as a brief Author list.

# HANDBOOK TO JUVENILE LITERATURE

## Author List of Fictional Works

Books considered to be suitable for girls are indicated by an asterisk (*).

Sequels are shown in numbered order.

It has not been thought desirable to include entries of works of a non-fictional character in the first portion as these are usually sought for under the subject.

Those who desire to ascertain the literature available on any specific subject should consult the second section which is arranged in classified order.

It will be found that a reference to the Index will frequently save much time

**WITH NELSON IN COMMAND.** A Tale of Nelson and the Baltic. By ROBERT LEIGHTON. With Illustrations. Imperial 16mo, cloth, bevelled boards, olivine edges, 6s. [*Second Edition.*

*Morning Post*—"The reader obtains a good idea of Nelson's character, while the condition of the eastern counties of England at a time when smuggling was rife and the pressgang won men for the Navy is described with accuracy. The story itself goes with a swing and dash which makes it excellent reading, and if the young hero's promotion to the quarter-deck is rapid, he certainly won it manfully."

**GREEN PAINTED SHIP.** A Romance of the Sea. By ROBERT LEIGHTON. With Illustrations by J. W. CHARLTON. Imperial 16mo, cloth, bevelled boards, olivine edges, 6s. [*Second Edition.*

*Daily Telegraph*—"A mutiny, an abandoned ship, the discovery of a pirate's hoard of treasure, and many exciting episodes, go to make up a story after the British boy's own heart, and one that fully maintains its author's reputation as a writer of stirring and exciting tales."

**ENGLAND'S SEA STORY.** By ALBERT LEE, Author of "Famous British Admirals." Profusely Illustrated. Imperial 16mo, cloth boards, 5s.

# BOOKS YOU WILL ENJOY.

## REBECCA OF SUNNYBROOK FARM,

By KATE DOUGLAS WIGGIN

Crown 8vo, cloth, fully gilt back, 6s.

This book has met with a phenomenal success, over 210,000 copies having been already sold, and is still in great demand.

*Bookman.*—"From the moment when you see Rebecca, a small child of eleven, to the end, some six years later, your interest never flags. The humour and pathos of it all is of the quiet, subtle kind that is almost as indescribable as a fragrance is. The characters are drawn clearly and intimately . . . . they are all fashioned with a skill and a sympathetic knowledge that makes them vividly real. The natural life-likeness and humour of the book are perfect in their kind: Mrs. Wiggin herself has done nothing better, and this is very high praise."

*Spectator*—"By its gaiety, its tenderness, and its wit, as well as on the score of its subject, deserves a place on the shelf that holds Mrs. Ewing's 'Six to Sixteen.'"

*Also by KATE DOUGLAS WIGGIN.*

## CURLY: A Tale of the Arizona Desert.

By ROGER POCOCK, Founder of "The Legion of Frontiersmen."

Crown 8vo, with Ten Full-page Illustrations by Stanley L. Wood, Cloth gilt. 6s.

*Schoolmaster*—"Will send any healthy boy into ecstacies of delight."

*Scotsman*—"Those who do not find in 'Curly' something novel and stimulating are hard to please. The story and its heroine fairly gallop off with the reader.

*Daily Telegraph*—"The book bristles with adventure"

*Dundee Advertiser*—"Packed with incidents, grim moving, sentimental and humorous in the best of fashions. It reveals out-of-the-way human nature in a style that we fancied had perished with Bret Harte, and its realism is nothing short of magical."

*Spectator*—"It is full of life and action, without a halt in the interest from the beginning to the end, and thoroughly wholesome. . . . An eminently readable volume."

# PRIZES IN COLLEGES AND SCHOOLS.

Every Head Teacher whose desire is to present PRIZES in his School that the recipients will value is respectfully asked to note the following statements:—

(1) The demand for S. W. PARTRIDGE & CO.'s PRIZES in Public Schools is increasing by tens of thousands every year.

(2) Their Prize Books are absolutely pure in tone, but quite free from the goody-goody element which the average school-boy dislikes. It is this fact which renders it **quite unnecessary** for Educationalists to read S. W. PARTRIDGE & CO.'s PRIZE BOOKS before distribution.

(3) S. W. PARTRIDGE & CO. have already had the pleasure of knowing that many thousands of their beautiful productions have been ordered by the new Education Authorities.

(4) Heads of Colleges and Council Schools often write to state that as regards Subject-matter, Typography, Bindings, and Illustrations, S. W. PARTRIDGE & CO.'s PRIZES are the best published in London.
